

Delores Dalton Dunn, Candidate for the Democratic Committee of Virginia
1st Congressional District, 2017

I am running for this position because of my strong belief that I am qualified to represent this district due to my experience at various levels in the Democratic Party and because of my desire to continue our forward progression of getting more folks involved in the Democratic Party and more elected officials who best represent our values and concerns. This spring I was fortunate to travel to DC at the invitation of the VA office of the Chesapeake Bay Foundation to discuss with several members of Congress a concern about the elimination of the Bay Clean Up funds in the “skinny budget.” I have also spent two sessions at the Virginia General Assembly as a volunteer supporting science education. I am excited that my family’s recent downsizing, which will allow more time for community involvement, keeps my primary residence in the 1st District.
