

## Vote ***Kiera A. Coy*** for **1<sup>st</sup> CD State Central Committee**

As a progressive with a life-long passion for science, I graduated with my Bachelor's of Science in Biology from George Mason University. I began my career working in environmental conservation at the Smithsonian Conservation Biological Institute, the Senckenberg Institute and similar institutions. While learning from leading scientists at those institutes, I assisted them in research that has shaped scientific policy nationally. ***My passion for science has shaped my political advocacy as well; I have been an advocate for climate change, conservation, and renewable energy.*** We should be shaping policy based on facts!

The devastating election of Trump – and the threat he represents to all the progress we've made – spurred me to expand my activism.

- I am a co-leader of Indivisible NOVA West, a large grassroots advocacy group made up of empowered women and men dedicated to resisting the Trump administration.
- I am also the Secretary of the Progressive Caucus, which is a newly-founded caucus of the Prince William County Democratic Committee.
- Speaking out against issues of inequality and oppression towards minorities, such as the 287(g) agreement that encourages ICE raids within our county.
- To harness the energy of newly-awakened activists, I actively organize community events in the Manassas, Bristow, Gainesville, Haymarket areas. During these events, attendees are given the opportunity to learn about their current members of congress and meet local candidates running for office.

If elected as a Prince William County representative for CD 1, ***I will continue to prioritize progressive democratic values such as: protecting the environment, combating economic inequality (especially among women), and taking a stand against racism, intolerance, and hatred.*** To represent Prince William County would be an honor and a responsibility I would not take lightly. I've worked with newer people in the party as well as those who have been working in the party for years; I want to bring everyone together as Democrats fighting for the same goals. We need to continue to make the Democratic Party a community of inclusion and I know we can rise to the occasion as this is when we are needed most.

**Vote for *Kiera A. Coy* on May 13th!**
